

PHRN is celebrating 10 years of PHRS

Dear All,

Greetings from Public Health Resource Network (PHRN)!

It is a matter of great pride that this year PHRN is celebrating 10 years of Public Health Resource Society (PHRS)! You might be aware that PHRS was started in 2008 as the Secretariat to support the work of PHRN which initially began in Chhattisgarh. To commemorate our journey so far, and to reflect on the same, we have planned for a day's event, on 21st September 2018, in Raipur, Chhattisgarh. We, therefore, cordially invite you all to join us in the celebration and grace the occasion with your presence!

Since its existence, PHRN has been actively engaging and contributing towards attaining the objective of 'Right to Health' and 'Health for All' by building capacities and networking with all public health practitioners who share a similar vision. Through its work, PHRN has also been in a constant dialogue with the public health system, people's representatives, social movements, civil society organizations and academia. It will be wonderful to have all friends, partners and fellow travellers to be with us on this day on 21st September 2018, in Raipur. We chose this particular date and Raipur for our celebrations since it all started originally in Raipur and interestingly on the subsequent days of our celebrations we are also having our third National Health Assembly (21st to 23rd September) in the same venue. I believe it cannot get better than this. And this apart we have our vibrant network in Chhattisgarh, and the convenient location of Raipur.

We are in the process of finalising the programme schedule and the final programme will be sent to you all shortly. We request you all to please block 21st September in your calendar and for those who are interested in the National Health Assembly, please block the entire weekend (21st to 23rd September). Our administrative and accounts team will be in touch with you soon regarding the travel arrangements.

Look forward to seeing you all in Raipur.

Sincerely,
ganapathy
